

BLITT

The piloting of the **BLITT - Train the Trainer course** has been concluded. Adult trainers in all partner countries had the opportunity to learn from experts about how to elevate their teaching from traditional learning methods.

All activities were completed by the partners using a hybrid model, with **80 participants** attending the organised events.

CURRENT ACTIVITIES

Over the past months BLITT partners have started translating the course materials in each of their national languages.

The course will be available for all trainers in EN, GR, ES and SL by the end of March 2024!

NEXT STEPS

As we are approaching the end of the project, BLITT partners have started scheduling their own national multiplier events, which will be taking place until the end of **March 2024!** The partnership will introduce the **final** project results through its multipliers, which will benefit many adult learners, researchers, policy makers and other relevant stakeholders at a national and international level.
